

Secure-Fax™ - ONLINE FAX WITH WORKFLOW

TRULY PAPERLESS AND HIPAA COMPLIANT

BEFORE

AFTER

- **Do you receive faxes by email but print them for any reason?**
- **Are your faxes really HIPAA-compliant?**
- **Is your Center getting deluged with paper even though you got rid of the fax machine?**
- **Do you scan faxes into your EMR?**

Secure-Fax™ is an innovative and HIPAA-compliant online software solution for busy healthcare centers. It is an easy to use web-based service similar to most online email applications. Secure-Fax™ allows healthcare centers to not only Receive and Send faxes electronically but also enables user to add comments and archive faxes without having to print - savings in cost and time!

Try Secure-Fax™ risk free for 30 days and see how it reduces paper clutter and saves time and money for your Center!
